What is Phishing?

Phishing is a cyber attack where hackers trick people into revealing their personal information like passwords and bank details.

They pretend to be trusted companies like Google, Amazon or your Bank.

Types of Phishing:

-  **Email Phishing** - Fake emails from trusted companies
-  **Spear Phishing** - Targeted attack on specific person
-  **Smishing** - Phishing through SMS messages
-  **Vishing** - Phishing through phone calls
-  **Fake Websites** - Copies of real websites

Real World Examples:

- ✗ Email saying "Your Netflix account is suspended"
- ✗ SMS saying "You won Rs 10,000! Click here"
- ✗ Call from "Bank" asking for OTP
- ✗ Fake Amazon login page stealing password
- ✗ Email from "Boss" asking for money transfer

How to Recognize Phishing Emails:

- ⚠ Urgent messages like "Act Now!"
- ⚠ Spelling mistakes in email
- ⚠ Sender email looks suspicious
- ⚠ Asking for password or OTP
- ⚠ Suspicious links inside email
- ⚠ Too good to be true offers

How to Spot Fake Websites

✗ FAKE : www.g00gle-login.com

✓ REAL : www.google.com

✗ FAKE : www.amaz0n-offers.com

✓ REAL : www.amazon.com

Always check:

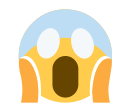

🔒 Lock icon in browser

🌐 Correct website spelling

⚠ HTTP vs HTTPS

Social Engineering Tactics:

Hackers use these tricks:

-  FEAR - "Your account will be blocked!"
-  GREED - "You won a prize!"
-  URGENCY - "Act within 24 hours!"
-  TRUST - Pretending to be your boss
-  AUTHORITY - Fake bank or government emails

Best Practices to Stay Safe

- ✓ Never click suspicious links
- ✓ Always check sender email address
- ✓ Use 2-Factor Authentication
- ✓ Never share OTP or password
- ✓ Report suspicious emails
- ✓ Keep software updated
- ✓ Use antivirus software

Quick Quiz! 🧠:

Q1: Which email is suspicious?

- A) newsletter@amazon.com
- B) amaz0n-support@gmail.com ✓

Q2: What should you do with suspicious email?

- A) Click the link
- B) Delete and Report ✓

Q3: Which website is fake?

- A) www.google.com
- B) www.g00gle-login.com ✓

Q4: Phishing via SMS is called?

- A) Vishing
- B) Smishing ✓

Conclusion:

-  Stay Alert - Think before you click!
-  Verify - Always verify sender identity
-  Report - Report suspicious messages
-  Update - Keep your devices updated

Remember:

"When in doubt, Don't click!"

Thank You
